

DonorPerfect Donates Web-based Fundraising Software for Small Nonprofits via TechSoup Canada

Instead of using Excel or Access, nonprofits with record counts under 500 and annual operating budgets of \$250,000 or less can request a donation of DonorPerfect Online, a solution designed exclusively for fundraising and donor management.

Montreal, QC – DonorPerfect Online (DPO), a [top-rated fundraising software](#) solution as noted by independent organizations N-TEN and Idealware, is now available as a donated service on [TechSoup Canada](#), a one-stop resource for nonprofit technology needs. “We are very proud to partner with TechSoup Canada” said Jon Biedermann, Vice President for SofterWare, developer of DonorPerfect. “Together, we’ll enable nonprofits with less than \$250,000 in revenue to use our top-rated web-based fundraising solution – DonorPerfect – as a donated service through TechSoup Canada’s product donation program. This offer includes product updates and access to our recorded webinars. Organizations with annual operating budgets under \$1 million are eligible to receive a 10% discount on a DonorPerfect license.”

“We are excited to help SofterWare extend its successful U.S. donation program on TechSoup.org to two additional countries, Canada and the UK,” commented Gayle Samuelson Carpentier, Chief Business Development Officer, TechSoup. “Thanks to our long-time TechSoup Global Network partner TechSoup Canada, qualified Canadian nonprofits now have access to a donor management tool that is very popular in the U.S.”

Doug Schoenberg, CEO of SofterWare, noted “In this economy, nonprofits have to work harder to raise needed funds, and we know that having the right tools is essential to fundraising success. With so many smaller nonprofits struggling with spreadsheets and general purpose databases, we felt it was important to make this donation to provide the benefits of professional fundraising and donor development tools to those who could least afford it. We’re delighted to be working with TechSoup Canada to make this great opportunity available.”

About TechSoup Canada
